RABBIT KING

$RBK | TOKENOMICS & ROADMAP

ONE KING. ONE RABBIT HOLE.

LAUNCHED NOVEMBER 5, 2026
ATMOS TOKEN STUDIO

A community-driven meme token built around its people, its identity, and the fun of the rabbit hole.

Rabbit King ($RBK) is a pure community meme token. No empty promises, no guaranteed returns, and no claims of guaranteed future utility. The focus is community participation, meme culture, and transparent communication.

1B	243M	100M	100 DAYS

TOKENOMICS

SUPPLY OVERVIEW

ITEM	AMOUNT	STATUS / DETAILS
Total supply	1,000,000,000 RBK	Total token supply stated by the project.
Permanently burned	130,614,257 RBK	Reported as permanently burned and removed from circulation.
Locked allocation	243,000,000 RBK	Locked until June 2, 2027. Separate from the 100M SpikeyFun staking allocation.
SpikeyFun staking	100,000,000 RBK	LIVE & RUNNING — allocated to community staking rewards for 100 days.

SUPPLY ACCOUNTING: The 100M RBK allocated to SpikeyFun staking is separate from the 243M locked allocation. This document lists the figures provided by the project and does not infer the allocation of any unreported balance.

POST-UNLOCK PLAN

JUNE 2, 2027 — PLANNED TREATMENT OF THE LOCKED 243M RBK

50% BURN **121,500,000 RBK** Planned permanent burn	**50% STAKING** **121,500,000 RBK** Planned staking allocation to reward holders

The plan is to burn half of the 243M locked tokens after the June 2, 2027 unlock, then allocate the remaining half to staking to reward holders. These are planned actions, not completed events. The burn and staking allocation should be verifiable through public on-chain transactions when carried out.

ROADMAP

A clear path focused on community participation and transparent token actions.

01	**NOVEMBER 5, 2026 — LAUNCH** Rabbit King ($RBK) launched on Atmos Token Studio as a pure community meme token.
02	**SPIKEYFUN STAKING — LIVE** 100,000,000 RBK allocated to community staking rewards on SpikeyFun. The 100-day staking period is live and running.
03	**JUNE 2, 2027 — LOCK EXPIRY** The 243,000,000 RBK locked allocation reaches its stated unlock date.
04	**AFTER UNLOCK — PLANNED 50% BURN** Plan to permanently burn 121,500,000 RBK, representing half of the unlocked allocation.
05	**AFTER UNLOCK — PLANNED HOLDER STAKING** Plan to allocate the remaining 121,500,000 RBK to staking to reward holders.
06	**COMMUNITY-LED GROWTH** Continue building through participation, creativity, and transparent communication—without unsupported promises.

OUR APPROACH

NO EMPTY PROMISES. Rabbit King is a pure community meme token. The project does not promise profits, guaranteed price appreciation, guaranteed staking returns, exchange listings, or future utility. Participation is voluntary, and meme-token markets can be highly volatile. Always do your own research and understand the risks before participating.

TRANSPARENCY NOTES

- The 100M RBK SpikeyFun staking allocation is separate from the 243M locked allocation and is currently live and running.
- The project reports that 130,614,257 RBK has already been permanently burned. A public transaction link or burn address can be added as supporting evidence.
- The planned 121.5M burn and 121.5M staking allocation will happen after the June 2, 2027 unlock; they are not completed actions.

• Any future changes to these plans should be clearly communicated and supported by verifiable details.

ONE KING. ONE RABBIT HOLE.

Built around the community. Clear about the plan.
